

## QuietCall Auto Paging

- Great range for clear, reliable communication anywhere in your lot
  - Anti-theft feature minimizes pager loss with an out-of-range alert
  - High quality pagers provide superior performance and reliability
- Enhance Customer Service, Generate More Revenue

Improve your customers' experience while they wait for their vehicle to be serviced with QuietCall auto dealer paging system. QuietCall notifies customers with a flash, beep or vibrate the instant their vehicle is ready. Eliminate long lines or noisy overhead systems for your customers. With QuietCall, your staff can also communicate quietly and effectively with each other to stay current on a customer's service status. QuietCall helps you be more profitable by increasing add-on sales and improving the customer experience. Lightweight, convenient pagers free customers to visit the showroom, customer lounge or waiting room for a more relaxing experience. With QuietCall, your staff will deliver faster, smoother, more customer-friendly service.
