

Retail Paging System

Push Button Paging

Personalized Shopping Experience

Empower your customers to experience shopping at your store, their way, with Push Button Paging retail system. Simply with the push of a button on the transmitter, customers can call an associate for assistance any time or request for the manager to resolve an issue. With Push Button Paging, your staff can deliver exceptional, personalized customer service. Or use Push Button Paging for your staff to communicate with each other and management without leaving their station.

Push Button Paging helps you be more profitable. Efficient paging by the customer reduces labor cost and keeps your staff more productive. With Push Button Paging, your associates and managers have the opportunity to respond to customers immediately, meet their specific needs, turn a potential bad experience into a positive one, and reduce the check-out time. Count on Push Button Paging to eliminate long lines and keep customers happy.

Push Button Paging lets customers control their shopping experience by paging for assistance when needed—resulting in happier customers and higher profits.

Push Button Paging Highlights

- > **Simple Self-Installation**
No electricity is required.
No WiFi is used.
- > **Easy-to-Use System**
Simply sync the transmitter to the associate and manager pagers to assign unit. A quick, 2-step process allows you to reassign unit on the fly.
- > **Rechargeable**
Unlike the competitor's systems, Push Button Paging transmitters are rechargeable.
- > **Completely Wireless**
No messy wires or electrical cords.
- > **No Software Required**
There's no need for expensive, complicated software licenses to set-up and use Push Button Paging, keeping the cost of ownership down.
- > **Small Footprint**
Push Button Paging transmitters stack neatly, saving you counter space and reducing clutter.
